

Maryland Association for Healthcare Quality *Education Conference*

CPHQ Virtual Review Course

April 25, 26, & 27, 2023

Class Times: 9:00 AM to 1:30 PM

Description

This interactive 3-day (4.5 hrs each day) virtual workshop covers all topics presented in the Content Outline of the CPHQ Certification Exam. The content of the outline will be covered with discussion, real life examples of how the information should be utilized, including examples of when the content was not applied correctly in healthcare organizations. The participants are encouraged to ask questions throughout the presentation since most of the information builds throughout the 3 days. Information covered includes but is not limited to basic quality concepts, leadership, performance measurement and management, information management including tools and statistics, patient safety, and accreditation & licensure. Attendees will be able to identify areas within the CPHQ Certification Content Outline where they are strong in their knowledge and where they are weak and thus require further study, knowledge, and/or experience prior to taking the CPHQ Certification exam.

Instructor

Susan Mellott PhD, RN, CPHQ, FNAHQ

Susan Mellott is well known in the field of healthcare quality as a consultant and educator. Dr. Mellott has authored numerous publications and is a nationally-recognized speaker. Susan is a Certified Professional in Healthcare Quality (CPHQ) and is also a Fellow of the National Association for Healthcare Quality. She currently serves on the Advisory Panel of the Healthcare Associated Infections (HAI) and Preventable Adverse Events (PAE) under the Texas Department of State Health Services. She is also a DNV Accreditation surveyor. Dr. Mellott has extensive experience with the survey process, especially with The Joint Commission standards and surveys. Dr. Mellott has focused on healthcare quality in multiple settings, including hospitals, long term care centers, home health settings, clinics, and networks. She has experience in decreasing costs, improving patient/customer satisfaction and quality, while involving teams from the facility, including physicians and administrative staff. Dr. Mellott also addresses groups around the country regarding performance and quality improvement in healthcare.
